quality counts.™*

# Delta Spray™

## Air Spray/HVLP Spray Finishing Gun

### **Outstanding Finish Quality**

Delta Spray provides outstanding finish quality for both air spray and HVLP applications. The HVLP model is an environmentally compliant solution for superior atomization of materials that previously required air spray.

### **Ergonomics**

Delta Spray's universal gun body fits all hands, big and small. This lightweight, 17 ounce (484 g) metal gun and its unique, curved handle help reduce operator fatigue.

### **Durability**

Delta Spray's metal gun body has been through rigorous testing to withstand the most aggressive treatment on the production floor.

*Time to make the change to Graco.*

### **It's About Time**

If you've been thinking about making the change to HVLP, or just want the fine performance of air spray, give us a call. Experience the Delta Spray difference.

## Air Spray/HVLP Spray Finishing Gun

### Typical Fluids Handled

- Non-grain raising (NGR) stains
- Waterborne coatings
- Topcoats
- Primers

### Typical Applications for Air Spray and HVLP

- Wood
- Aerospace
- Truck and bus
- Automotive assembly
- Automotive feeder components
- General metal

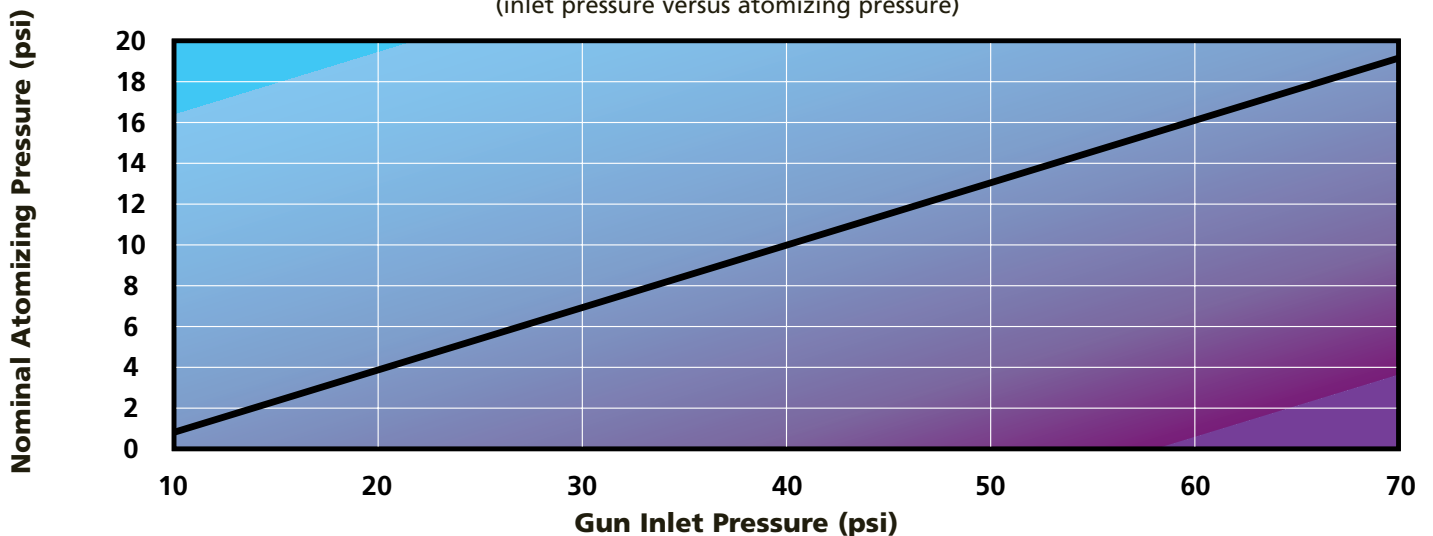

### Technical Specifications

Max. working fluid pressure . . . . .	100 psi (0.7 MPa, 7 bar)
Max. working air pressure . . . . .	100 psi (0.7 MPa, 7 bar)
Max. compliant inbound air pressure . . . . .	40 psi (280 kPa, 2.8 bar)
Fluid and air operating temperature range . . . . .	32° to 140° F (0° to 60° C)
Weight . . . . .	17.1 oz. (484 g)
Air inlet . . . . .	1/4-18 npsm (R1/4-19) compound thread
Fluid inlet . . . . .	3/8-18 npsm (R3/8-19) compound thread
Wetted parts . . . . .	304 and 17-4 PH stainless steel, PEEK, acetal, UHMWPE
Instruction manual . . . . .	308-741

UHMWPE = Ultra High Molecular Weight Polyethylene

**Atomizing Air Pressure**  
(inlet pressure versus atomizing pressure)
